FLUSH-MOUNT INSTALLATION

WARNING & CAUTION PAGE:

PLEASE NOTE:

- Power on and test the electric fireplace unit prior to installation
- This is a general installation guide - local building codes may vary. Consult local building codes prior to installation.

Improper installation, adjustment, alteration, service or maintenance can cause injury or property damage. Refer to the product user manual. For assistance or additional information, consult a qualified installer.

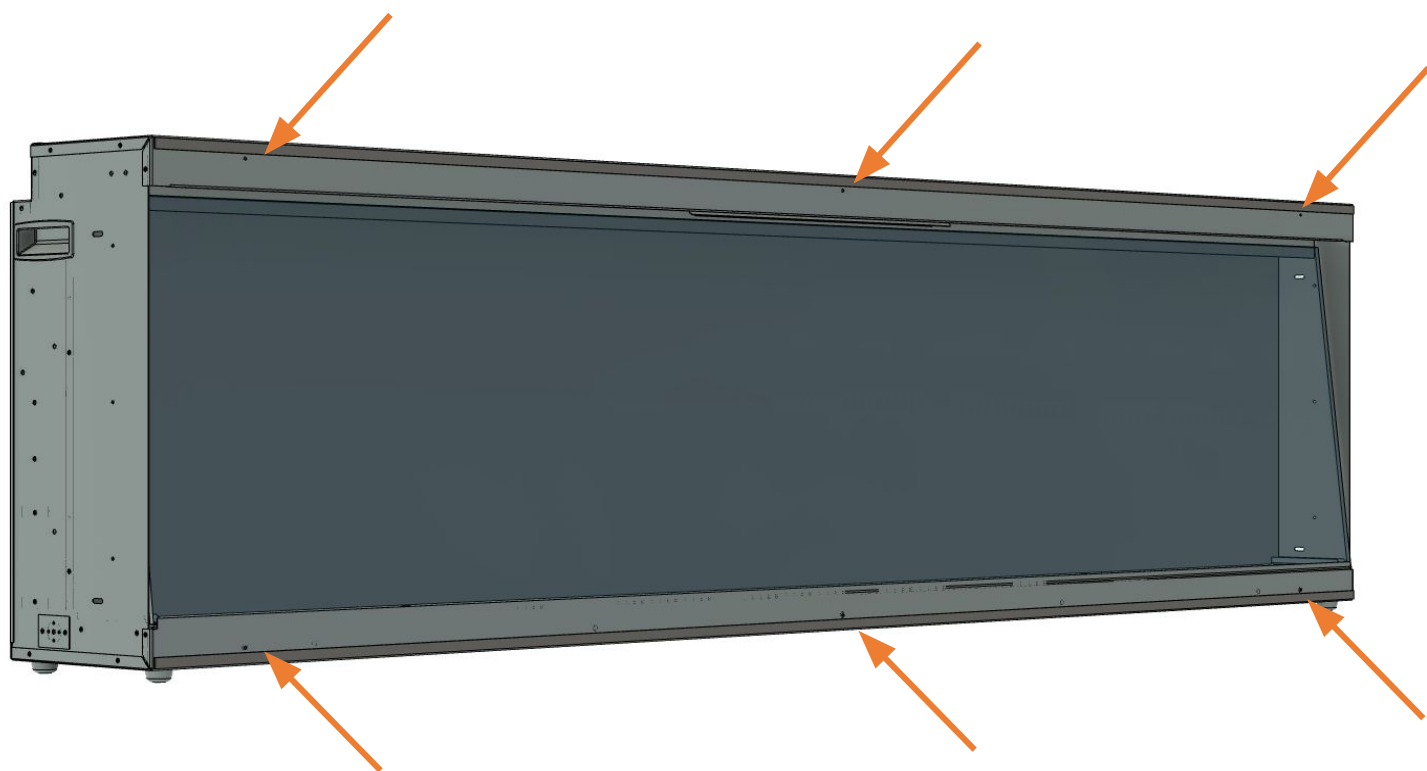

Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.

DO NOT run power cord under carpeting. **DO NOT** cover power cord with throw rugs, runners, or similar coverings. **DO NOT** route power cord under furniture or appliances. Arrange power cord away from traffic area, and where it will not be tripped over.

ALWAYS plug heaters directly into a wall outlet/receptacle. **NEVER** use with an extension cord or relocatable power tap (outlet/power strip).

NEVER plug this heater into an outlet that is old, cracked, or has any loose wires or connections. Plugging this heater into a faulty outlet could result in electric arcing within the outlet that could cause the outlet to overheat or catch fire

Allegro Series Installation Guide

- With the front trim removed, ensure the magnets and holders are removed from the top and bottom trim

Allegro Series Installation Guide

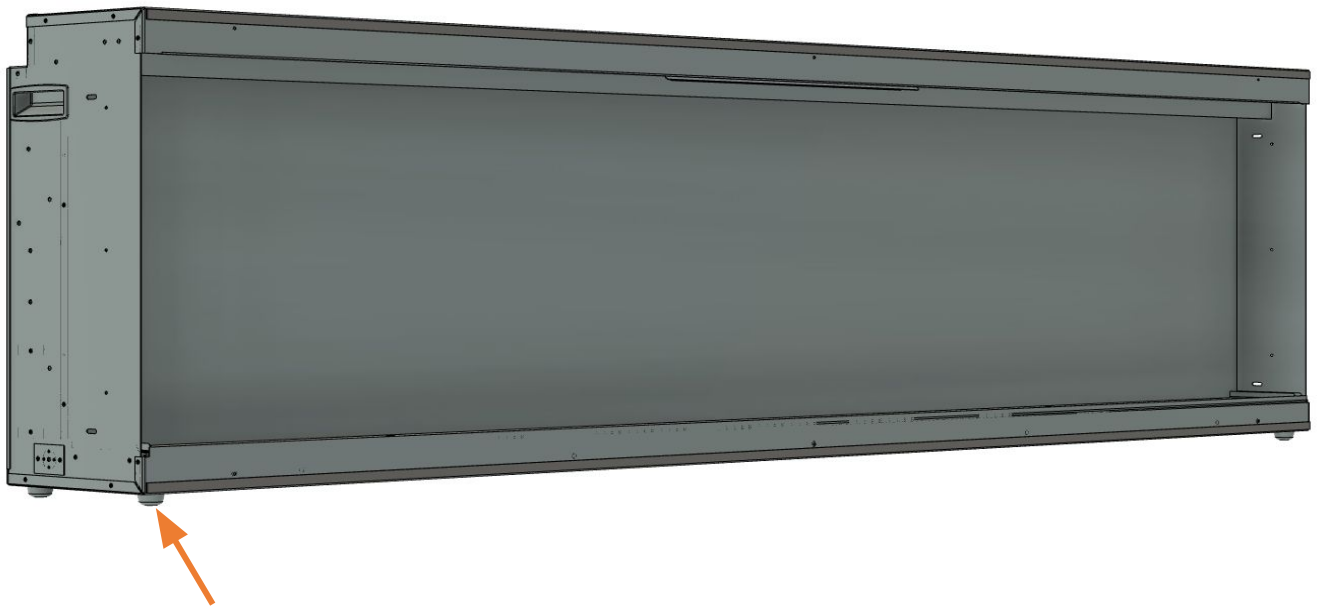

- Unscrew the bolt and hinge holding the front glass.

To remove the glass, use the hinges to hook onto the glass to pull it forward, or slowly tip the fireplace forward to catch the glass.

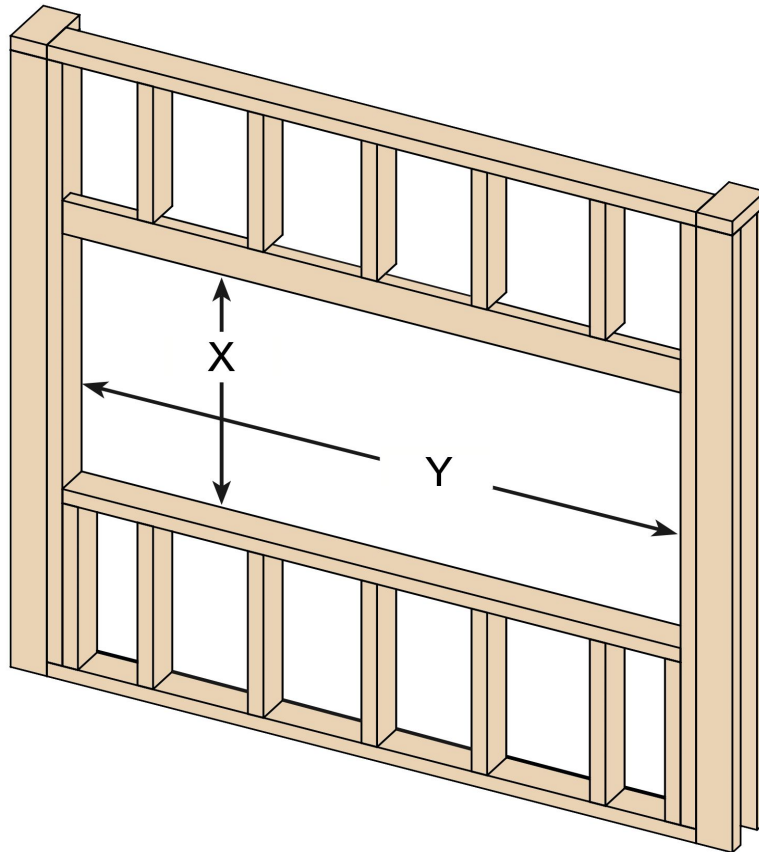

Safely set aside glass for later

Allegro Series Installation Guide

- The optional four rubber feet may be removed for more stability
